GlowStar Launches New User-Friendly Website

Jul 31, 2014 10:27 AM By GlowStar

Press Release: GlowStar Diamond is one of the world's leading diamond manufacturing companies and clients may view and purchase stones from our live inventory list 24 hours a day, seven days a week.

GlowStar a leading Gemological Institute of America (GIA) certified diamond manufacture is set to launch its website www.glowstaronline.com. The new website will save clients time and create a smoother buying experience. The added features cater to buyers' overall experience, simplify the buying process and build stronger relationships around the world.

The company also added the "inventory link" feature on its portal to allow online jewelers, retailers and dealers to access GlowStar's whole diamond portfolio through an easy server setup.

We are confident that our clients will have a great experience on our website and we look forward to a strong business relationships with them.

About GlowStar:

GlowStar, built on the pillar of a young team, operates with strong business ethics and became a benchmark destination for certified diamonds in a very short time. We offer vast range of 0.18-carat to 2.00-carat certified stones in all shapes. We believe in following strong business ethics, best quality standards and Kimberley Process protocols to ensure our buyers a conflict-free diamond. Our manufacturing unit in Surat is equipped with the most modern machines. GlowStar is making its mark with exports to the U.S., Japan, Hong Kong, Israel, U.K., Belgium, Australia, New Zealand, UAE and many parts of Europe.
